REPORT ON PLANT SAPLING DISTRIBUTION

NAME OF THE DEPARTMENT:- ECO CLUB

Name of the Event : PLANT SAPLING DISTRIBUTION

Date of the Event : 14/09/2024

Brief Details about the Event

To promote environmental awareness and encourage green practices, the Eco Club organized a sapling distribution programme for the local public on 14 September 2024 at 1:00 p.m. The initiative aimed at spreading greenery in the surrounding areas and motivating people to participate actively in environmental conservation.

During the programme, plant saplings were distributed to local residents, and the importance of planting and nurturing trees for a healthy ecosystem was highlighted. Members of the Eco Club guided participants about proper plantation methods and care of saplings. The programme received an encouraging response from the public and successfully contributed to fostering a sense of environmental responsibility in the community

Outcome Achieved:

1. Plants can help increase oxygen levels.
2. It aids in soil replenishment, waste water recycling and sustainable tree growth.
3. To save the endangered environment & to beautify our life.
4. People learned responsibilities by caring for the plant.

Total No of Participants : 32
